

CENTRAL BANK OF
MONTENEGRO

CBCG E-SERVICES

<https://eportal.cbcg.me>

What do e-services enable their clients?

E-services enable clients to access data from the Enforced Collection System and the Central Register of Transaction accounts.

How to access data?

Data can be accessed through the **eCBCG** portal (<https://eportal.cbcg.me>). The User Guide is published on the CBCG website (www.cbcg.me).

Which data and/or certificates may be obtained using the services?

- certificate of the judgement creditor's claim collection priority order;
- certificates of total outstanding liabilities to individual judgement creditors, including the number of days of the judgement debtor's account freeze, and an overview of the number of executed, partially executed, and non-executed orders;
- certificate of account freeze as at a specific date or during a certain period of time
- data on transaction account numbers of natural persons as judgement debtors

How can data and/or certificates be collected?

- electronically
- in the CBCG Archive Room
- by mail

What are the advantages of using e-services?

- Accessibility from anywhere in the world
- Cost and time effectiveness
